Owner of the Dam will be allowed up to 2 repeat breedings if the breeding does not take or the female has less than 2 pups, Therefore a total of 3 breedings. If 3 breedings are unsuccessful after adequate quality semen is sent, then Owner of the Dam will be granted one frozen breeding from the stud. The contract has then been fulfilled by DOGPOUND KENNELS. We may ask for documentation to prove a female is not pregnant at our own discretion. However if a litter of 2 or more are born and die at the fault of the Owner of the Dam, DOGPOUND KENNELS will not grant a repeat breeding as it is the Owner of the Dams responsibility to take care of the whelping and rearing of the pups. Please take your female to the Vet on a regular basis while pregnant, get an ultrasound and schedule a c-section if needed, Vet visits are vital to a successful breeding!

Customer will provide DOGPOUND KENNELS proof of a Negative Brucellosis test if a natural tie is to be performed, before said breeding is to occur. This is to prevent any Sexually Transmitted Diseases when performing a natural breeding.
